

P1

A screenshot of a Tic Tac Toe game interface. The board consists of a 3x3 grid of dark gray squares. The top row contains a green circle ('O') in the first square, a red cross ('X') in the second, and a green circle ('O') in the third. The middle row contains a green circle ('O') in the first square, a red cross ('X') in the second, and a green circle ('O') in the third. The bottom row contains a green circle ('O') in the first square, another green circle ('O') in the second, and a green circle ('O') in the third. Below the board is a dark gray button labeled "Reset Game". The background is black.

The browser developer tools are open, showing the HTML structure and CSS styles. The HTML code includes a header, a board container with 9 li elements, and a footer. The CSS styles define a body with a background color of #1c1b1b, a font family of Arial, and a margin of 8px. A specific rule for the body is highlighted in yellow, setting the background color to #1c1b1b, the color to #666, and the font-family to 'Arial', sans-serif.

A screenshot of a Tic Tac Toe game interface. The board consists of a 3x3 grid of dark gray squares, all of which are currently empty, containing only a white plus sign ('+') in the center.

The browser developer tools are open, showing the same HTML structure and CSS styles as the previous screenshot. The CSS styles define a body with a background color of #1c1b1b, a font family of Arial, and a margin of 8px. A specific rule for the body is highlighted in yellow, setting the background color to #1c1b1b, the color to #666, and the font-family to 'Arial', sans-serif.
